2. Basis for preparation.

CCC S.A. Capital Group presents the condensed consolidated interim financial statement for the period of four quarters of 2013 beginning on 01 January 2013 and ending on 31 December 2013.

This condensed interim financial statement was prepared in accordance with IAS 34 "Interim Financial Reporting". This statement does not cover all the information and disclosures required in the annual financial statements and should be read together with the financial statements for the period from 01.01.2012 to 31.12.2012 which were prepared pursuant to the International Financial Reporting Standards approved by the European Union.

3. Basis for consolidation.

This condensed consolidated interim financial statement contains the statement of the dominant entity CCC S.A. and the statements of the subsidiaries.

The subsidiaries are subject to consolidation in the period from the date of assumption of control by the Group to the date of cessation of control.

All entities constituting the Capital Group underwent audit during the entire reporting period. All transactions, balances, revenues and costs between the consolidated subsidiaries are subject to consolidation exemptions.

The Continental Trust Fund does not prepare financial reports as it is not required under the U.S. law. However, as a Trustee, at each Beneficiary's request, it will confirm in writing the type of assets turned over for management. Valuation of assets will be carried out in accordance with the provisions in force in the Beneficiary's jurisdiction, i.e. in accordance with the laws of Poland.

4. Functional currency and currency of the financial statements.

Items contained in the Capital Group's condensed consolidated interim financial statements are valued in the currency of the primary business environment in which each entity operates ("functional currency"). This financial statement is presented in PLN, which is the Group's functional currency and its presentation currency.

5. Accounting principles applied.

The accounting principles applied by CCC S.A. Capital Group companies did not change compared to the accounting principles applied in the financial statement prepared for the financial year from 1 January to 31 December 2012, except for the application of the new standards.

6. Reporting segments.

Identifying operating segments

Operating segments are presented consistently with internal reporting supplied to the Key Operating Body – the management board of the dominant entity. Operating segments are divided into stores and franchise business partners.

Identifying reporting segments

The identified operating segments (stores, franchise business partners, wholesale contractors) are aggregated into reportable segments as they meet the aggregation criteria of IFRS 8. CCC S.A. Capital Group identifies two reportable segments in its business (“retail business”, “franchise and other business”) in accordance with IFRS 8 “Operating Segments”. In the identified segments, CCC S.A. Capital Group conducts business activity generating certain revenues and incurring costs. The results on segment activity are regularly reviewed by the Key Operating Body. Financial data on the identified segments is also available.

The “retail business” – “retail” segment

The “retail business” segment covers primarily the sale of footwear, shoe care products and small leather products. CCC S.A. Capital Group carries out sales in its own locations in Poland, the Czech Republic, Slovakia, Hungary, Austria, Slovenia, Croatia and Turkey and Germany, addressing retail customers. Retail sales is conducted within the CCC, BOTI and LASOCKI chains. The operating segment is each individual customer operating in one of the chains and analysed individually by the Key Operating Body.

Due to the similarity of the long-term average gross margins, and also due to the similar nature of the goods (among others, footwear, shoe care products, small leather products), the method of distribution of goods and the types of customers (sales conducted in own stores and addressed to retail customers), the “retail business” segment covers financial information jointly for the CCC, BOTI and LASOCKI chains, while the operating segments were combined under IFRS 8, forming a reporting segment called “retail business”.

The “franchise and other business” – “franchise and other” segment

The “franchise and other business” segment includes primarily the sale of footwear, shoe care products, small leather products and services, as well as the value of production sold (i.a. shoes) to entities outside the CCC S.A. Capital Group. The sale is carried out by CCC S.A. and CCC Factory Sp. z o.o. in Poland and is addressed to Polish wholesale customers (primarily those conducting sale in the franchises of CCC and BOTI) as well as foreign wholesale customers. The operating segment is each individual customer operating in one of the chains and analysed individually by the Key Operating Body. Due to the similarity of long-term average gross margins, and also due to the similar nature of the goods (among other things, footwear, shoe care products, small leather products) and the services provided (re-invoicing transportation services), the method of distribution of the goods and the type of customers (sale targeting wholesalers), the “franchise and other” segment covers financial information for all business partners combined under IFRS 8, forming a reporting segment called “franchise and other business”.

The accounting principles applicable to the operating segments are the same as the accounting policy principles under which the CCC S.A. Group companies prepare their financial statements. The Group evaluates the results of operation of each segment on the basis of financial performance.

Other disclosures related to reporting segments

The following items do not apply: revenues on transactions with other business segments of the same entity, the entity's share in the profit or loss of affiliated entities and joint ventures and material non-cash items other than depreciation.

CCC S.A. Capital Group discloses information about the revenues from the sale of products and services to external customers as part of reporting segments. A group of similar products (such as footwear, shoe care products, accessories) is presented in the retail and franchise segment (due to the minor share of the sale of goods other than footwear, they are not disclosed individually). Thus, the CCC S.A. Capital Group does not present separate information on the revenues from the sales of products and services to external customers.

CCC S.A. Capital Group does not disclose information about major customers in the statements, as revenues from a single external customer do not represent 10% of CCC S.A. Group's revenues.

Furthermore, throughout the year, sales are tied closely to weather conditions. Weather may disrupt such seasonality pattern, by accelerating or postponing the periods of lower or higher sales, respectively.

Seasonal fluctuations for the past five years are presented in the diagram below.
