III. The Company's result, financial position and significant financial statement items (continued)

The financial statement does not account for the effect of inflation. The overall consumer price index (December-to-December) in the audited year amounted to (-1.0%) (2013: inflation 0.7%).

Comparability of financial statements for the years 2013-2014, and thus the information value of financial ratios for these periods may be limited due to the restructuring made within the Group, in which the Company is a Dominant Entity, as a result CCC S.A. limited its core business mainly to retail sale.

The comments below are presented on the basis of the information obtained in the process of auditing the financial statements.

- At the end of the financial year the Company's assets amounted to 968,466,000 PLN. During the year, the balance sum decreased by 64,919,000 PLN, i.e. by 6.3%. This decrease was mainly caused by the decrease of the assets balance by 160,175,000 PLN., current liabilities by 85,788,000 PLN and cash and cash equivalents by 33,664,000 PLN with a decrease of long-term investments at the same time by 51,243,000 PLN and loans granted by 154,353,000 PLN. Simultaneously the Company decreased the long-term debt on loans and borrowings by 308,437,000 PLN taking a long-term debt on the bonds issue in the amount of 210,000,000 PLN. The Company paid a dividend in the amount of 61,440,000 PLN achieving a net profit in the amount of 115,825,000 PLN.
- Inventory balance at 31 December 2014 amounted to 228,303,000 PLN and decreased by 160,175,000 PLN, i.e. by 41.2% compared to the previous year. The decline in inventory balance mainly results from the separation of wholesale from CCC S.A. to a subsidiary as part of the restructuring process and thus the transfer of inventory within the main warehouses of the company to CCC Eu. Sp.z o.o.
- The Company's ratios and debt structure changed. The debt ratio declined from 61% at the end of the previous year to 53% at the end of this year. Liabilities turnover decreased respectively from 56 days to 52 days. The main reason for the changes in this regard was the above mentioned the restructuring.
- The total sales revenue amounted to 1,695,891,000 PLN and increased by 184,299,000 PLN, i.e. 12.2 % compared to the previous year. The Company's primary corporate purpose in the current financial year was selling footwear. The increase in sales was mainly due to growth within the retail. Wholesale trade was realized in the first three quarters of the year, and then was acquired by the subsidiary.
- The most significant item of operating expenses was the cost of goods sold amounting in the audited financial period to 996,152,000 PLN., which represents 63.9% of operating expenses. Cost of goods sold in comparison with the previous year increased by 140,335,000 PLN, i.e. by 16.4%, mainly due to increased scale of operations within retail sales.
 - Profitability measured by net profits was reported at 7% and did not change compared to a previous year.
- The Company's balance of payments changed slightly. Liquidity ratio I and II in the audited year amounted to respectively 2.0 (2013:1.1) and 1.1 (2013: 0.7)
